

## SUMMARY

A passionate and collaborative team player seeking a challenging Software Engineer position to leverage my technical expertise, software development knowledge, leadership skills and exceptional communication abilities.

## WORK EXPERIENCE

**1. GlobalLogic Technology Pvt Ltd, Gurugram**  
*Associate Analyst*  
**(Contract)**

October 2024 – February 2024,

- Conducted detailed sound annotation for the "Humans and Interactions", providing labeled data to optimize machine learning models for human interaction analysis.
- Utilized advanced Excel functions, including **VLOOKUP** to cross-reference data, **SUMIF** and **COUNTIF** for data aggregation, and **IF** statements to automate classification processes, enhancing data accuracy and workflow efficiency.
- Leveraged Excel formulas to streamline data analysis, improving the precision of AI-driven interaction recognition systems.
- Participated in **Agile methodologies**, including sprint planning, daily stand-ups, and retrospectives, to ensure timely project delivery and continuous model improvement.

**2. ArgoCap**  
*Trainee*

January 2023 – June 2023, Bhubaneswar

**ArgoCap** is a cross-platform application developed using **JavaScript** (for frontend functionality), **HTML/CSS** (for user interface design), and **Java** (for backend services). The solution seamlessly integrates real-time weather updates, government schemes, and organic farming information.

**Key Features:**

- Real-time Weather Updates:** Fetching live weather data via APIs to provide accurate, location-based information.
- Government Scheme Integration:** Utilizes Java for backend services to manage and display relevant government scheme data.
- Organic Farming Information:** Provides access to farming tips, market trends, and resources, all managed and served via Java-based backend services.
